1 Brief Introduction

Beijing Technology and Business University (BTBU) is a high-level research university established as a key development project in Beijing. It was formed in June 1999 through the merger of Beijing Business College, Beijing Institute of Light Industry and the Mechanical Industry Management Institute. BTBU is distinguished by its strengths in business, light industry, and food science, while promoting coordinated development across multiple disciplines including science, engineering, economics, management, law, liberal arts, art and agriculture. The university has established a comprehensive talent cultivation system spanning undergraduate, master's, and doctoral studies. BTBU comprises 4 colleges, 10 schools, 1 teaching department and 3 faculties, with a current staff of 1,658, including 1,122 full-time teachers. The university has two campuses, Fucheng Road and Liangxiang, covering a total area of 830,000 square meters. It currently hosts 7 first-level discipline doctoral degree authorization points, 1 doctoral professional degree authorization point, 1 joint doctoral degree authorization point, 19 first-level discipline master's degree authorization points, 22 master's professional degree authorization points, and 62 undergraduate programs. Among them, 7 disciplines have entered the top 1% of the ESI global ranking. Currently, the university is advancing towards becoming a "Double First-Class" discipline construction university with the development concept of "Business Integration".

Located in the heart of China's capital, Beijing, BTBU boasts superior geographical positioning with its two campuses, Fucheng Road and Liangxiang, spanning 830,000 square meters. The university features well-equipped teaching, research, and living facilities set in the beautiful campus environment. BTBU warmly welcomes outstanding students from all over the world to pursue their studies here.

2 Colleges

College of Economics and Management

- School of Economics
- Business School
